Jeven

Blenheim Palace
Woodstock
Oxfordshire OX20 1PP, United Kingdom
Tel. +44 (0) 1993 810 530

Jeven's cooperation partner Cyclone Ventilation Ltd delivers Jeven kitchen ventilation systems to Blenheim Palace in the United Kingdom.

Blenheim Palace is one of the UK's most popular world heritage sites. It is the home of the 11th Duke of Marlborough and birth place of Sir Winston Churchill. Please visit Blenheim Palace at www.blenheimpalace.com

The new kitchen hoods will feature the Jeven JSI-UV filtration system with its unique cylindrical cyclone primary filters. Together with the supply air fascia and direction air units, the ventilation system will be controlled by a hood mounted UV Combilux touch screen panel. This particular hood has been designed for a kitchen where a comfortable, productive and healthy indoor climate is demanded.
